Bug Resolution

Release Notes · https://dropletlab.com/knowledge-doc/bug-resolution/

In this release, the following bugs have been fixed:

- The app selected to share project data showed errors indicating that it did not have access to the file. This has been resolved and now the project files can be shared again.
- In case of an inyector/platform device disconnection, the app did nothing causing an error sending command. The error is fixed. In case of disconnection, the app will try to reconnect.
